★ **2.Read the text carefully and answer the questions below (H.W)**

★ **A sharks' trainer**

★ I'm Sarah Turner. I have an unusual job. I train sharks at the Sea Life
★ Centre. Sharks are amazing creatures and they are very clever. Lots of people
★ are scared of them, of course. I want to learn more about them so that I can
★ teach people not to be scared. Sharks live in huge tanks. You need to be brave
★ to dive with a video camera to film the sharks in the sea.

★ We teach sharks to touch a special button to get food. Every button is a
★ different colour. The sharks learn to recognize their button and press it with
★ their noses when they are hungry. We move the button around the tank so that
★ the sharks learn to follow them.

★ Sharks can understand and remember. They understand that one button
★ means "food", although it doesn't look like food. And when we put the button
★ in a different place, they still remember it.

★ I've learnt a lot about sharks' eating habits and routines. I've also learnt
★ that all sharks have different personalities. One of the young sharks here likes
★ to chase the bigger sharks. They also like to play with her food. Sharks are not
★ monsters. They are often clever, funny creature.

★ **A) Answer the questions:**

★ 1. Sarah Tuner wants to learn more about sharks. Discuss.

★
★

★ 2. Mention one example from the text to prove that sharks can understand.

★
★

★ 3-Summarize the passage in one sentence.

★

★ **B) Choose the correct answer:**

★ 4. You need to be brave to(press the button - dive with a video camera to
★ film the sharks -chase the bigger sharks-play with the food).

★ 5. Sharks live in huge (tanks – houses – caves-villas).

★ **3- Read the text carefully and answer the questions below**

★ **The neighbours**

★ The neighbours closest to my house are my favorite people. The man is a retired
★ army officer and his wife is still working for the nearby university. They are very
★ hospitable and usually invite friends to lunch. It is particularly enjoyable to wake up on
★ a Friday morning to the sounds of their music playing, which are really quite artistic.
★ However , I also love to hear them laughing when they make a mistake in their music
★ playing. Besides music, carpentry is still the man's main interest, and most days he
★ practices his hobby in his work space in the garden. Making an artistic piece of
★ furniture.

★ My neighbours are ideal to live next door too, because they can be very helpful
★ if I need them. I respect them as they never interfere in my private affairs and I behave
★ with them in the same way. We have helped each other with numerous emergencies
★ such as fire and car accidents. We also co-operate with each other in little ways such as
★ bringing in the mail when one of us is away. We sometimes meet when they invite me
★ over to coffee with some of their friends who are usually very interesting people;
★ poets, painters, professors and other lively persons whom I enjoy meeting. Sometimes,
★ we go out together to share some special occasions such as festivals and celebrations.
★ A part from this, we simply live next door to each other peacefully side by side.

★ **Answer the following questions :**

- ★ 1- Give one reason why the writer love his neighbours.
★
★
★ 2- What hobbies do the writer's neighbours practice?
★
★
★ 3- Why does the writer respect his neighbours ?
★
★

★ **Choose the correct answer :**

- ★ 1- The underlined word " usually " means :
★ [always - seldom - many times - never]
★ 2- The writer's neighbours are ideal because they:
★ [have ideas - are perfect - are unbearable - are troublesome]
★ 3- At the neighbours house the writer meets
★ [interesting people - uninteresting people - soldiers and artists only - officers
★ and professors only]
★ 4- The underlined word "little ways " refer to [short roads - personal business - not
★ long streets - simple services offer] .

★ **4. Read the text carefully and answer the questions below (H.W)**

★ **The moon**

★ Although the moon may seem small and **insignificant** compared to the
★ rest of the universe, the size and the location make it very important to the
★ earth. Other than the sun, it is the most visible body in the sky. Because of this,
★ humans have been fascinated by the moon since ancient times. It has been
★ studied both from the Earth and from space.

★ In fact, more than 70 spacecrafts have been sent on missions to the moon.
★ In addition, the moon is the only place outside of the Earth that has been visited
★ by humans. The average distance of the moon from the Earth is about 238,900
★ miles (384,400 kilometers). This may seem like a great distance. However,
★ compared to the distance of the earth from other planets, the moon is actually
★ quite close.

★ **A) Answer the questions:**

★ 1. Although the moon is insignificant compared to the rest of the
★ universe, it is significant to the Earth. Illustrate.

★
★

★ 2. What is the most visible body in the sky?

★

★ **B)Choose the correct answer:**

★ 3. The synonym of “insignificant” is (important –unimportant –
★ compared- fascinated).

★ 4. Less than (60 – 80 –50) spacecrafts have been sent on missions to
★ the moon.

★ Date:.....

★ **5. Read the text carefully and answer the questions below**

★ Many experts believe there are too many people in the world. Unless there are
★ big changes in the way people think about the number of children they should have,
★ the world's population will double in 25 years. There will be more than 20 cities with
★ populations greater than 20 million. Now, there is only one.

★ Some people who don't understand what overpopulation means point to
★ countries such as Australia and say, " there is plenty of room there " Although most of
★ Australia is unpopulated, and much of it is thinly populated, there are reasons for this.
★ Firstly, much of the land is desert and waterless, and secondly, even the land that is
★ not desert is not suitable for anything , not even growing areas. Another major
★ problem we shall have to face as the world's population grows is a shortage of energy.
★ We are using up coal and oil and when they have been used up; we shall have to find
★ something to take their place. It is true that we can make electricity from the heat of
★ the sun and moving water, but we don't have yet the technology to do this in a big
★ way. The biggest problem we shall have when the world's population doubles will be
★ pollution. The air we breathe is already badly polluted.

★ **Answer the following questions :**

★ 1- Why is a great area of Australia unpopulated ?

★
★

★ 2- Mention two problems we will face as a result of over- population.

★
★

★ 3- What does the underlined word " they " refer to ?

★
★

★ **Choose the correct answer:**

★ 1- In order to prevent the world's population from being doubled , there must be a
★ change in

- ★ a- the methods of agriculture.
- ★ b- sources of energy.
- ★ c- the way people think about the number pf their children.
- ★ d- the education of the great numbers of children.

★ 2- When coal and oil have been used up, we shall

- ★ a- Search for other sources of energy.
- ★ b- Wait for scientist to solve the problem.
- ★ c- Use computers instead.
- ★ d- Try to do without them or any other kind.

★ Date:.....

★ **6. Read the text carefully and answer the questions below (H.W)**

★ **The Olympic Games**

★ The Olympic Games are the world's leading sport event. Athletes from
★ almost every country in the world compete in them. The Olympics include the
★ Summer Games and the Winter Games. Each is organized in a different
★ country once every four years.

★ Until the early 1990s the summer and winter games were held in the same
★ year. Today they are separated by two years. The Olympic Games were first
★ held in ancient Greece at a site called Olympia. The ancient Greek games
★ lasted until AD 393. The Olympics were revived in the late 1800s. The games
★ that began then are called the modern Olympics.

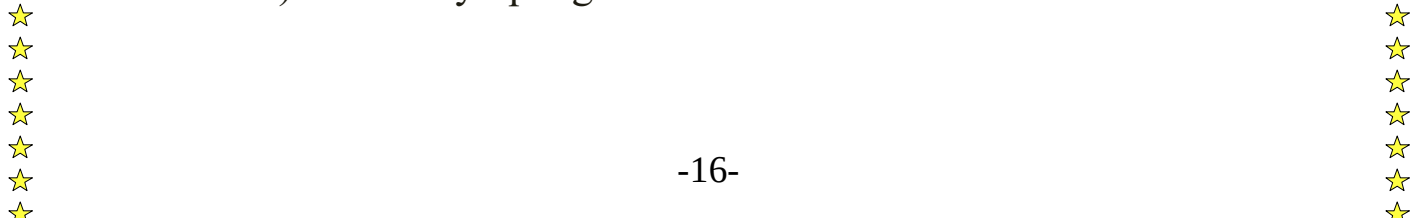

★ **A) Answer the questions:**

★ 1. When were the Olympic games renewed?
★
★

★ 2. Talk about the competitors in the Olympic Games.
★
★

★ **B) Choose the correct answer:**

★ 3. The games that began in the late 1800s are called the (old – Greek –
★ modern-ancient) Olympics.
★
★ 4. Another title for the passage can be “The (development – effect – success
★ - failure) of the Olympic games”.

★ Date:.....

★
★
★
★ **7. Read the text carefully and answer the questions below**

★ In ancient times, people tried to explain the world around them based on
★ what they saw. People in ancient times saw that the sun came up from one side
★ of the earth, moved across the sky, and went down on the other side. Based on
★ this **observation**, they believed that the sun travels around the earth. Going
★ directly from observation to conclusion is called non-scientific thinking.

★ Here is an example of non-scientific thinking. Maybe you had a sick
★ stomach, and ate a candy bar. An hour later, you observed that you felt much
★ better. You might conclude that it was the candy bar that made you feel better.
★ But there are other possible explanations for the observation. Maybe you had
★ taken some medicine an hour earlier, and it took a while to work. Maybe enough
★ time had passed, and you would have felt better without eating the candy bar.
★ Non-scientific thinking happens all the time.

★ The scientific method is a way of thinking that helps you to avoid drawing
★ incorrect conclusions. It does this in three ways. First, it helps you to avoid
★ nonscientific thinking. It also reminds you to treat your first conclusion as one of
★ several possible conclusions. Finally, it reminds you to gather evidence to
★ support your conclusion.

★ 1. What would be a good title for this whole article?

★ -----
★ -

★ 2- Write a simple summary for this article.

★ -----
★ -

★ 3- In paragraph three, what does pronoun “**It**” refers to?

★ -----
★ -

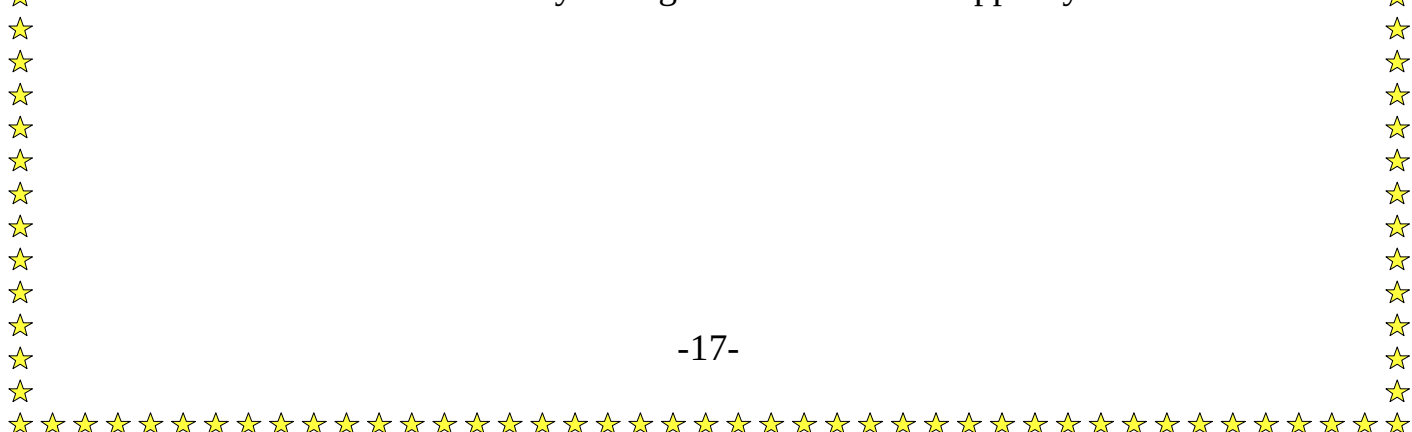

★ 4- The antonym of “observation” is (conclusion- remark- ignorance- consideration)

★ 5. Paragraph three indicates that .

★ A. The scientific method is a way of thinking that helps you avoid drawing incorrect
★ conclusions.

★ B. The scientific method reminds you to treat your first conclusion as one of several
★ possible conclusions.

★ C. The scientific method reminds you to gather evidence to support your conclusion.

★ Date:.....

★ **8. Read the text carefully and answer the questions below (H.W)**

★ My name is Becky. I love travelling, and one day I'd like to go around the
★ world. When I'm older and I've finished school, I will travel around the world
★ for a year! It will be great. I read a lot of books about different places around
★ the world and I want to visit all the places. I have already planned where I
★ want to go when I'm older.

★ First, I'll go to China and walk along part of the Great Wall. What an
★ experience! Did you know that it's 6,400 kilometers long! It's amazing to think
★ about all the people in the past who have walked along that wall.

★ After China, I'll go to Thailand. I'd like to travel through the busy streets
★ of Bangkok. I'll stop at a street market and try the food. I love spicy food, and
★ Thai curry is my favourite meal. I like the mixture of sweet and sour flavours.

★ My next trip will be Australia. It's got sun and beaches, so it's the perfect
★ place to relax. My favourite sport is surfing, and Australia has some of the best
★ surfing beaches in the world. I could also enjoy diving and snorkeling. The
★ water in Australia is very clear, so I could see lots of fish. I wish I was there
★ now! But I have to wait until I'm older enough.

★ **A) Answer the questions:**

★ 1. What did Becky read about? And what does she dream about?

★
★

★ 2. Mention the sea sports can Becky enjoyed in Australia.

★

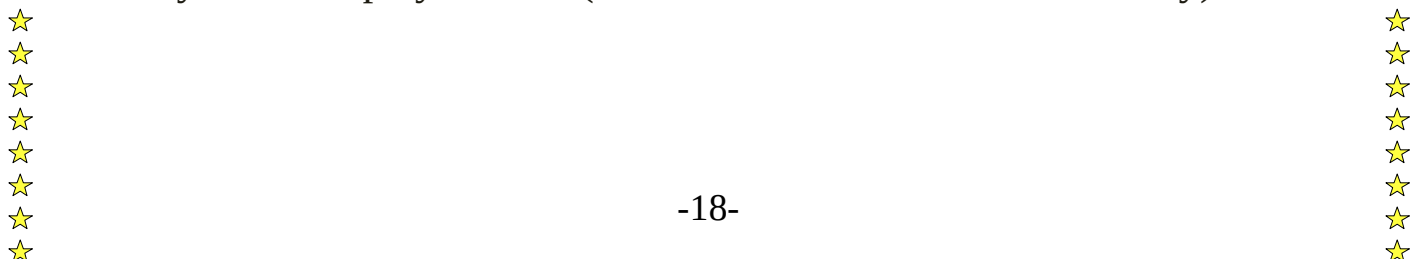

★ 3- Give a suitable title to the passage.

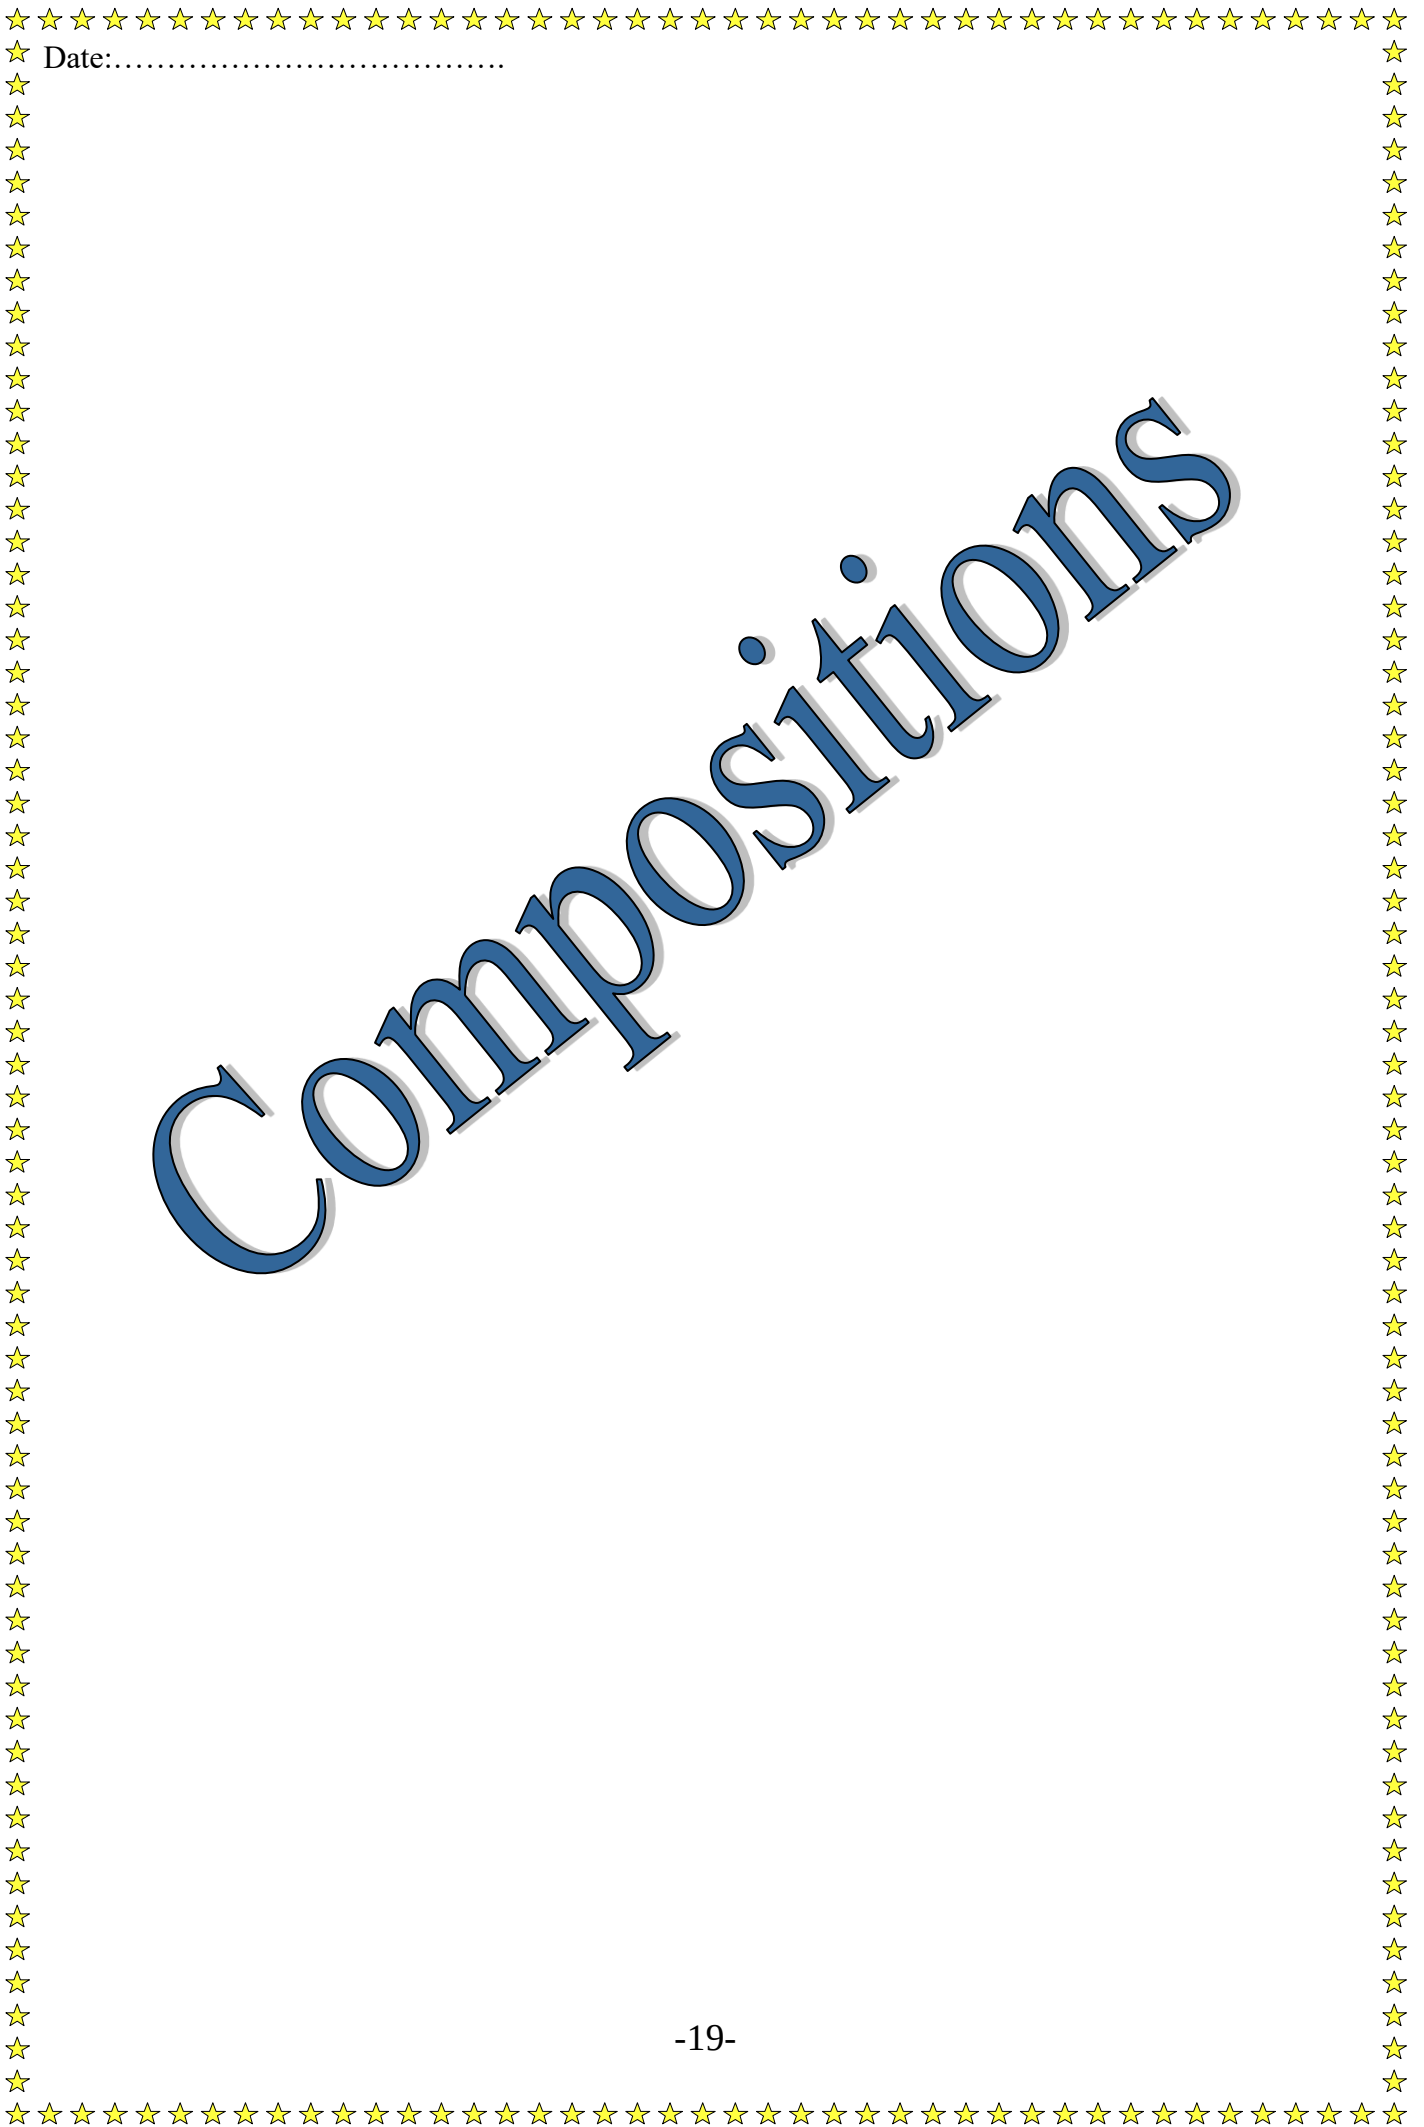

★

★ **B) Choose the correct answer:**

★ 3. Becky will travel around the world when (she is one year old- she's
★ finished school- she is in China- she is free).

★ 4. Becky will eat spicy food in (China - Australia - Thailand-Italy).

Composition 1

Advantages & disadvantages of T.V

When you're writing **an essay discussing advantages and disadvantages**, organise your ideas according to the plan below. Write in a formal style. Do not use short forms or abbreviations.

INTRODUCTION

- ▶ **Introduce the subject of the essay and both sides of the topic.**

MAIN PART (2 PARAGRAPHS)

- ▶ **Present the advantages in one paragraph and the disadvantages in another paragraph. Cover both sides of the topic equally. Use linking words/phrases:**

To list points: firstly, first of all, to begin with, secondly, also, in addition, what is more, finally, lastly, etc.

To express contrast: however, on the one hand, on the other hand, etc.

CONCLUSION

- ▶ **Make a general statement. Use phrases like:**
In conclusion,...
To sum up,...
- ▶ **State your opinion if you want to. Use phrases like:**
In my opinion,...
Personally, I believe...
I definitely think...
In my view...

[illegible]

Date:.....

3-Let's celebrate

When you're writing a description of an event, organise the information according to the plan below.

INTRODUCTION

🎯 **Give some general information about the event:**

- name
- when and where it takes place
- who takes part in it (could also be included in the main part)
- what people celebrate (could also be included in the main part)

MAIN PART

► **Mention what preparations people make, what people eat, do, etc.**

CONCLUSION

👉 Give your opinion of this event or make a general comment.

★ Date:.....

Mother's Day is coming soon. Write a paragraph on “Mother’s Day”.

(Mother's day-mother – important – life – kind – takes care – house work – food – when – ill – give – medicine – help – studies – should – love – respect – obey)

[illegible]
